HARDY ORNAMENTAL SHRUBS—Prepaid

We are inaugurating a new policy of prepaying all transportation charges within 1st and 2nd zone on Ornamental Shrubs. Remember the prices appearing after each variety of shrubs are the prices delivered to your door.

Ornamental shrubs are the foundation of all landscape plantings. In selecting your shrubs, bear in mind their ultimate height of growth. Place tall growing varieties in the background or in corners where height is needed. Use medium height growing varieties between taller sorts, and dwarf kinds, under windows and in front of the taller varieties.

Our advice on planting difficulties is available at all times. Write us. It's free.

Its unusual firmness makes it an ideal shipper and the fact that it retains its red color even after cooking makes it the perfect canner. Here's a strawberry that has everything. Be sure to give it a trial.

Note—Waybright Strawberry is protected by plant patent. Any sale, gift or other distribution in any way of these plants or their reproduction without license from patent owner, constitutes an infringement of the patent.

ARBOR VITAE

EVERGREENS

Evergreens, with their beautiful symmetry and their richness of color, add grace and dignity to the landscape design as no other nursery product can. Within the past few years, evergreens have gained in favor for the planting of the home so that now, the modern design calls for practically all evergreens. And this favor has been justly won for, in winter as well as summer, their wonderful shapeliness and their gorgeous hues inoculate their surroundings with a spirit of cheerfulness and satisfaction.

To flank an entrance, the taller growing varieties are particularly effective; for rock walls, terraces and rockeries, the prostrate types should be used. As single specimens out in the lawn, there is no more beautiful than the Colorado Blue Spruce. For windbreaks and backgrounds, use the Norway and Colorado Blue Spruce.

Remember our help and advice in beautifying your home is positively free, hence feel free to write us on any of these questions. We are sure that we can assist you.

All of our Evergreens are dug with a large ball of earth about the roots to insure safe transplanting. Crating and transportation are charged at cost.
